REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Referring to claims 1, 10 and 14: The most pertinent cited prior art fails to disclose supplying a gaseous hydrocarbon or alcohol to a space containing a mirror in a radiation system of the lithographic projection apparatus. In contrast, in a conventional radiation system, a gaseous hydrocarbon or alcohol produced inside the system during the operation due to the scattering on the system walls, is a great absorbed gas that reduces the energy of the radiating beam, so an inert gas or a low absorbed gas such as He or Nitrogen is filled into the radiation system to replace the gaseous hydrocarbon or alcohol. In addition, the cited prior art also fails to disclose at least one sensor selected from the group comprising a reflectively sensor to monitor a reflectivity of said mirror and a pressure sensor to monitor a background pressure in said space.

Claims 2-9, 11-13, 15-17 are allowed because they depend directly/indirectly on claim 1, 10, or 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LAM S NGUYEN whose telephone number is (571)272-2151. The examiner can normally be reached on 7:00AM - 3:30PM.
